# Career Planning

## Background:

Name : Peter

Education : Bachelor of Computer Science

Career Shift Goal : Finish DEPI and Become a React Frontend Developer

## Self-Awareness Stage

### 1. Personality

A. According to 16personalities.com

Mediator (INFP-T)

Introverted : Prefer to work alone

**Intuitive** : Focus more on **ideas, possibilities, and meanings** rather than just facts and reality.

**Feeling** : Make decisions based on **values and emotions**, not just logic.

**Perceiving** : **Flexible and spontaneous**, and you prefer to go with the flow.

**Turbulent** : **self-critical, worry about things, and sensitive to others.**

**Mediator is a person who is:**

- Imaginative & Idealistic
- Peace-Loving & Conflict-Avoidant
- Empathetic & Emotionally Aware
- Helpful (Even at Your Own Expense)
- Passionate but Sometimes Hesitant
- Drawn to Art, Writing, Music
- Lover of Deep Connections

## B. According to RIASEC

IRS

I = Investigative

- You enjoy **solving problems** and **exploring ideas or theories**.
- You tend to be **analytical, curious, and logical**.
- You feel comfortable in roles that involve **research, experiments, statistics, or deep thinking**.

R = Realistic

- You like working with your **hands**, tools, machines, or equipment.
- You're **practical** and prefer **hands-on or technical work**.
- You're more comfortable in jobs with **less talking and more doing**.

S = Social

- You have a desire to **help or support others**.
- You're **empathetic** and enjoy **human connection and communication**.
- You feel good in **collaborative environments** with social interaction.

## 2. Interests

- Learning new things
- Helping People
- Keeping a journal
- Reading
- Doing Crafts
- Linguistics and Cultures

## 3. Values

- Values Family and Friends the most.
- Prefers Peace and Simplicity work environment.
- Finance

# Career Awareness (Work Life)

- React is dominating the Front-End market, used by top companies like META (who created it), Netflix, Airbnb, Uber, and many more.
- React Native is the next level, learning react makes it easier to create a mobile app using React native.
- React is among the top Front-End skills requested by employers.
- Entry roles require, HTML, CSS, JavaScript.

## Career Action Plan (SMART Goals):

**Specific** : Finish **DEPI**, learn **front-end technologies** and create a strong portfolio.

**Measurable** : **DEPI** will end in **5 month** duration.

**Achievable** : I am only concerned with finishing the diploma (both technical and **soft skills**).

**Relevant** : Learning **front-end technologies** in-demand with **DEPI** if not included in the program.

**Time-bound** : Looking forward to the next 5 month.
